

3S10P PC Base Solar Powered Obstruction Light

The 3S10P uses a plastic base and 1.8W solar panel provides power, it makes 3S10P a self-contained and care-free light unit. Also, with the solar function, the light is easy to deploy to almost any condition and any emergency case. Robust body built and surface coating provides good protection against harsh environments.

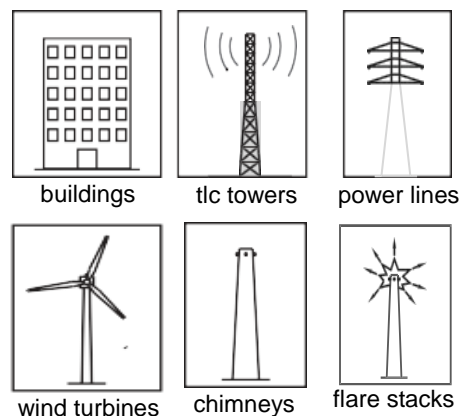

3S10P is equipped with an 8Ah NiMH rechargeable battery which could power the light up to 20 days when the weather is cloudy & rainy. NiMH battery is also a clean power source with no pollution. The NiMH battery is also easy to find almost anywhere.

3S10P also has an on/off switch at the bottom for storing and protect battery from overcharge and over-discharging.

Compliant

ICAO (Annex 14) Volume 1, 4th Edition, July 2004
FAA-Advisory Circular AC150/5370-2F

APPLICATIONS

Features

- Ultra-light LEDs, energy saving
- Self-contained without outside power supply
- Maximum visibility distance 4 KM
- Once fully charged, it can work for up to 200 hours
- Auto-off after being packed for 18 hours

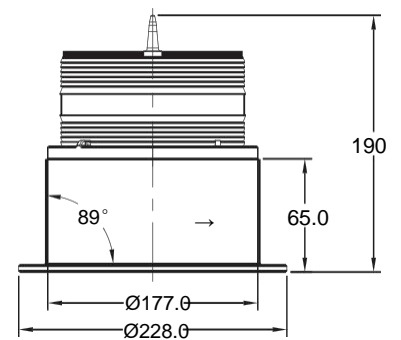

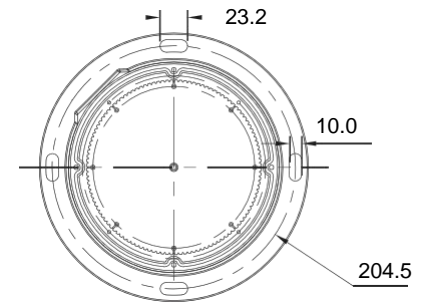

Application

- High-rise building marking
- Telecom tower marking
- Road obstruction marking
- Navigation aid
- Port, dock entrance & walkway
- Buoy marking
- Offshore gas & oil platform

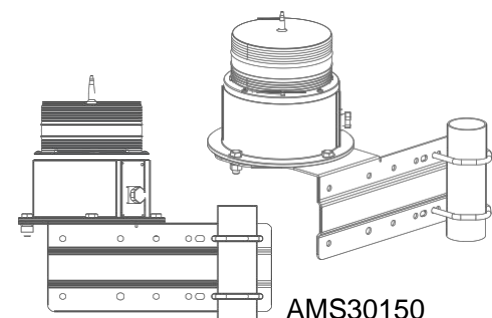

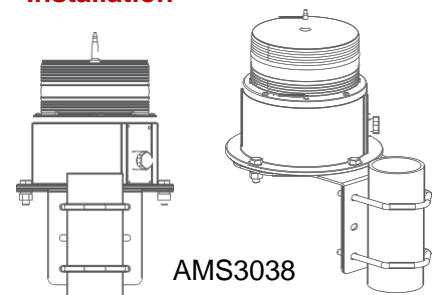

Specifications

LIGHT OUT-PUT	
Intensity	FLASHING
	● Red: >10cd ● Green:>20cd ● Yellow: >10cd ● Blue:>5cd ○ White:>25cd
	STEADY
	● Red: >4cd ● Green:>8cd ● Yellow: >4cd ● Blue:>2cd ○ White:>10cd
Nominal Night Range	>4 KM
LED Color Available	Red, Green, Yellow, White, Blue
Vertical Divergence	10 Degree
Horizontal Out-put	360 Degree
Illumination	Ultra-bright LEDs
Led Lifespan	100,000hours
OPERATION	
Autonomy	Flashing : 200 Hours / Steady : 100 Hours
On & Off Level	70/100 Lux
Flash Pattern	40FPM default (can be preprogrammed to a specified flashing rate upon customer request)
POWER SUPPLY	
Power Source	Solar module, mono-crystalline silicon
Solar Efficiency	17%
Max. Power Out-put	1.8 Watts
Battery Type	High-efficiency NiMH rechargeable battery
Battery Capacity	8 AH / 3.6V
Battery Replacement	Yes, replaceable
MECHANICAL STRUCTURE	
Lens	Polycarbonate, UV Stabilized
Body	UV resistant plastic
Water-proof	IP67
Weight	1.5 KG
Temperature range	-40C° ~ +55C°
Relative Humidity	100% with condensation
Warranty	5 years for light 2 years for NiMH battery

Installation

Note: when the light is in storage, please put it outside to charge the battery every 3 months

3Star AMS mounting kit : Ordering Code

Series	Vertical tower leg diameter range	Horizontal tower leg diameter range
AMS3080	30-80mm	30-80mm
AMS30150	30-150mm	30-80mm
